

include/core/cortex
-m4/timer_reg.h

```
graph TD; A["include/core/cortex-m4/timer_reg.h"] --> B["common/hal_types.h"]; A --> C["stdint.h"]
```

The diagram illustrates a header file dependency. A central box at the top represents the file `include/core/cortex-m4/timer_reg.h`. Two blue arrows originate from the bottom of this box, pointing downwards to two separate boxes below. The left box contains `common/hal_types.h` and the right box contains `stdint.h`. This visualizes that the top-level header file includes both of these other header files.

common/hal_types.h

stdint.h
