

include/core/cortex  
-m4/pwm.h

```
graph TD; A["include/core/cortex-m4/pwm.h"] --> B["utils/timer_types.h"]; A --> C["stdint.h"]
```

The diagram illustrates the preprocessor directives within the file `include/core/cortex-m4/pwm.h`. Two blue arrows originate from the bottom of the top box and point to the two `#include` statements in the code block below.

utils/timer\_types.h

stdint.h
